AEROPLANE CONSTRUCTOR OUTFITS

Boys, these Aeroplane Outfits are great! They enable you to build wonderful models of aeroplanes—the most realistic you ever saw.

A beautifully illustrated Manual is included in each Outfit showing how to build a number of different types of machines, both monoplanes and biplanes. Many other splendid models may be built by varying the positions of the parts, which are all interchangeable on the famous Meccano principle. The parts in the Nos. 1 and 2 Outfits can be used in conjunction with the standard Meccano parts.

If you want to know something about aeronautics the first step is to understand how aeroplanes are designed and constructed, so that you may be able to recognise at a glance the different types. Buy an Outfit to-day!

AEROPLANE CONSTRUCTOR OUTFIT No. 0. The parts contained in this Outfit enable an interesting range of aeroplane models to be built, including low-wing monoplanes, seaplanes and standard light biplanes. All the parts are interchangeable. They are smaller than those in Outfits Nos. 1 and 2, and are not intended for use with these larger Outfits. Price 5/-

AEROPLANE CONSTRUCTOR OUTFIT No. 1. High and low wing monoplanes may be built with this splendid Outfit, while interesting model biplanes may also be constructed. The biplanes include models based on the single-seater fighter type of military aircraft, and on the popular light aeroplane. Price 9/-

AEROPLANE CONSTRUCTOR OUTFIT No. 2. This Outfit enables a much wider range of models to be built, including triple-engined monoplanes and biplanes, and a racing seaplane of the type that is used in the Schneider Trophy Contests. A particularly interesting model is that of a giant Italian bombing machine. Price 16/6

This fine model of a triple-engined Seaplane is built with Meccano Aeroplane Constructor Outfit No. 2.
